News Unsatisfactory. News Unsatisfactory.

The latest word directly from the field of battle is the Mukden dispatch to the Associated Press, in which it is said that 15,000 Russians had been wounded, which together with today's casualties, would make the total probably exceed the figures of Liao Yang and make the fight rank as one of the bloodiest battles in history. A pitiable feature is the coming of thousands of wounded to Mukden. The roads and fields are covered with crippled men dragging themselves to the shelter of the hospitals, the wounded helping each other, as few able-bodied men are being spared from the fighting line.

Additional Gains by the Japanese on

Thursday. Tokio, Oct. 14.-(1:30 p. m.)-An extended report from the Manchurian headquarters reached Tokio during the night and was published this after noon. It records severe fighting during yesterday, and additional Japanese gains. The contest around Bensihu con tinues to be undetermined. Yesterday a force of Japanese cavalry, com-manded by Prince Kanin, made a de-tour of the Russian left flank in the rear of Bensihu, and partially scattered the Russian supports. The report is as

enemy's mail. The correspondent attempts to justify the action of the authorities in opening and serizing international mail by the action of the Japanese in stopping Russian mails to Port Arthur and in stopping telegrams addressed to the Russian cruiser Variag when off Chemulpo just previous to the outbreak of the war.

This latest phase of the seizure of the Calchas mails has caused a painful surprise in official circles, and if the action of opening the pouch addressed to the Cincinnati was wittingly done, the probability is a second protest will be lodged with the Russian government.

It is said at the navy department that the mail pouch referred to did not contain any official communications—simply mail for the men aboard the ship.

Conditions in Colorado.

The condition in Colorado was described as a reign of terror, with the militia running the state government. The adjutant general, Mr. Hill said, was one of the rough riders, or perhaps one of the tough riders of Roosevelts. With a continuance of Republican rule Mr. Hill predicted that militarism would pervade the United States.

The red fire of enthusiasm lit up Parkersburg tonight. Rockets, tin horns, megaphones, marching clubs, brass bands and the small boy had speakers of the party.

that I had not lived in vain." Referring to labor, he said: "I charge that the Republican party is raising the army in order that the trusts having robbed this country now use the army paid by the people

to force the laboring man down to the starving point."

Mr. Bryan said before closing:

"I am so Democratic that I would like to see postmasters elected by the people. I am tired seeing the federal government come in the seeing the ple. I am tired seeing the federal government come into a town and appoint as postmaster a man whom the people do not want. I am tired seeing federal patronage used to build up political machines. I did not expect to win at St. Louis. I knew before I got there that the majority of the convention was not with me, but I felt under obligations to the millions of men who had veted for me to go there and do the best I could, and I went there and fought from the time I got there until I went away."

In his speech at Alexandria Mr. Bryan denounced government by injunction and urged the support of Judge Parker because of his views regarding the recent labor troubles in Colorado. Further, the speaker said these disturbances were no worse than the condition of affairs in the Philippines, for which, he declared, the Republicans were responsible.

At Anderson Mr. Bryan was given a hearty greeting by one of the largest crowds assembled during his tour. Mr. Bryan explained his stand against government by injunction, saving:

"It is a process by which the great corporations are trying to deny the laboring men a trial by jury. I object Hawaiian islands say the boring men a trial by jury. I object to having the right of trial by jury de nied the laboring man, when they give it to the meanest third in the land."

At the cardonsien of Mr. Bryan's speech here tonight he left for Cambridge City.
